Online Parenting Program

➔ The 1-2-3 Magic and Emotion Parenting program is an evidence based program which will teach you about child development and provide the skills to manage children's difficult behaviour.

➔ For parents, grandparents, social workers, school liason officers and carers of children in the pre-primary and primary school years.

➔ The signalling system reduces the need to talk and use emotion by parents, encouraging the development of children's ability to understand and control their emotions.

➔ Delivered by an experienced Social Worker/Counsellor.
